

# Journal entry for 25-05-2018

---

## Story

Today is the very last day of our internship, it's been quite an experience. Mainly good, some bad but that's mostly due to things not working as they should

## IT Activities

- Setup brand new FOG servers in 2 different schools
- Resolve minor OneDrive issues
- Prepare 2 laptops for use with SharePoint

## Difficulties

- Issues loading into bios on some systems, no fix for that
