Journal entry for 01-03-2018

Story

Today w as expected to be some more firew all and a fair bit of printer install/configuring

IT Activities

- Sort out issues w ith the firew all
- Install/configure correct drivers (from the server) on all required/accesible devices

Difficulties

- Firew all w as w orking okay, the needed site to site vpn is dependant on the change in firew all at a different location, that's planned for tomorrow
- Minor issues w ith an incorrect driver and mainly a lot of domain/passw ord difficulties
